# OUR GLOBAL SERVICE

Solchem's R+D department offers a comprehensive range of services from the initial concept to the marketed product, according to the particular needs of the customer.

**Solchem** can act as a consultant on the different stages of new food supplement developments.

## MAIN IDEA

01

### DEVELOPING THE IDEA

STUDY

A study based on:  
Product application.  
Legislation.  
Market trends.  
Competition or successful cases.

INGREDIENTS

The optimum raw materials for the product are determined.  
PREMIUM ingredients are searched with studies or standardization in special actives.

FORMULATION

Based on the study it makes a proposal with an optimal backed formulation.

02

### PRODUCT DESIGN AND PRODUCTION

Sales Channel

Targeting customers

Market price, posology, competitor products.

DESIGN

The ideal formulation is decided according to dosage quantity per unit of sale and packaging.

FORM

A trial batch can be decided determining commercial and industrial batch optimal sizes.

PROPOSAL

Once manufactured additional stability tests can be made on demand.

TESTS

SEMI-FINISHED

FINISHED PRODUCT

03

### MARKETING SUPPORT

INFORMATION

We provide our customer with detailed information about the key points and competitive advantages based on PREMIUM ingredients used.

PRESENTATIONS

We help to create technical and commercial product's presentations.

LEARNING

We can provide training support to our customer's sales force.

WE HAVE A NETWORK OF  
**PARTNERS** WORLDWIDE  
WHICH ALLOWS US  
TO OFFER OUR CLIENTS  
**HIGH-QUALITY** RAW MATERIALS  
AT VERY **COMPETITIVE** PRICES

THANKS TO OUR  
**HIGH-QUALIFIED** STAFF,  
WE ENSURE A  
**HIGH-QUALITY** STANDARD  
IN ALL WORKING AREAS,  
CREDITED BY **ISO 9001:2015**

**solchem**<sup>®</sup>

WE ARE COMMITTED  
WITH OUR CUSTOMER'S SUCCESS
